

# Datasheet: MakroPorP1.5S1-160

---

## Macroporous silicon (dead end pores) (360006-W06)

### Etching

|                         |                                    |
|-------------------------|------------------------------------|
| <b>Pitch P:</b>         | 1.5 $\mu\text{m}$                  |
| <b>pore length L:</b>   | 160 $\mu\text{m}$ (dead end pores) |
| <b>pore diameter D:</b> | 0.9-1 $\mu\text{m}$                |

### Postprocessing

- annealed single pieces (6h@800°C)

### Images - optical microscope
