

# Datasheet: MakroPorP12M5-250

---

## Macroporous silicon membrane (131675-W01)

### Etching

<b>Pitch P:</b>	12 $\mu\text{m}$ square
<b>Pore length L:</b>	240 $\mu\text{m}$
<b>Pore diameter D:</b>	6 $\mu\text{m}$

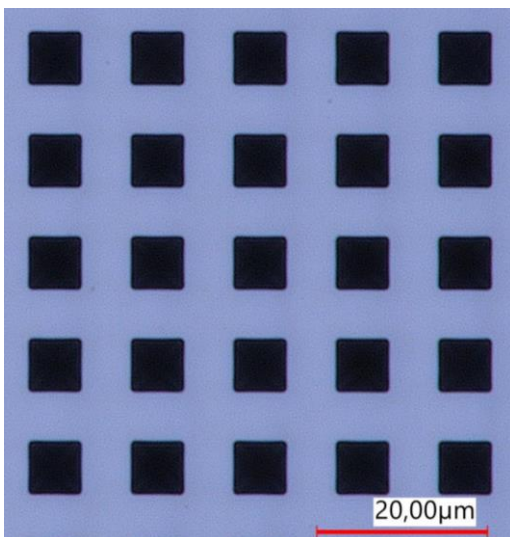

### Postprocessing

- Backside opening & grinding
- Laserdicing

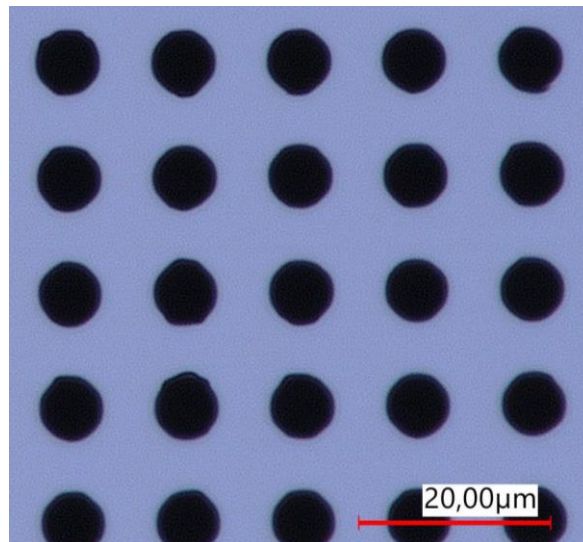

### Measurements

optical microscope

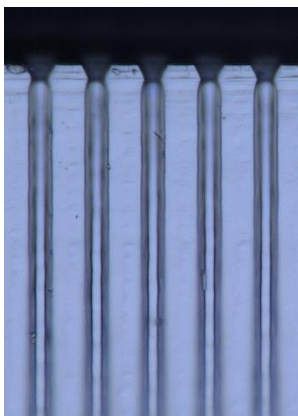

Top view

Bottom view

side view (generic)

### Remarks

Please note: According to our factsheets a bottleneck as pictured on the left may exist close below the surface.
