

# Datasheet: MakroPorP12S5-490

---

## Macroporous silicon membrane (305867-W09)

### Etching

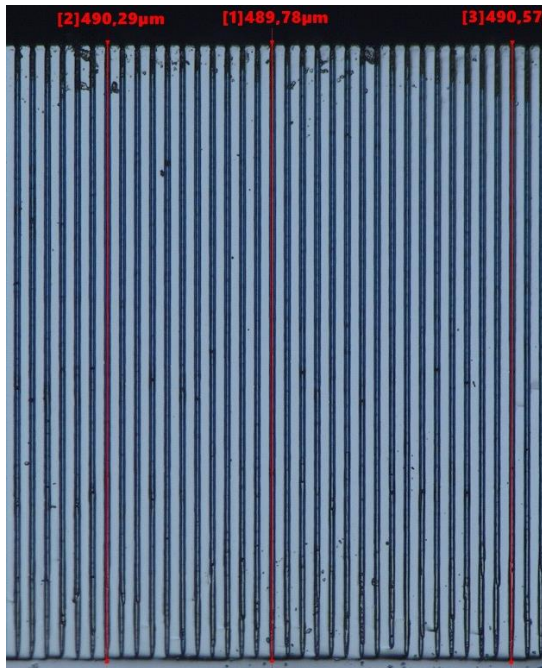

<b>Pitch P:</b>	12 $\mu\text{m}$ square
<b>Pore length L:</b>	490 $\mu\text{m}$
<b>Pore diameter D:</b>	5 $\mu\text{m}$

### Postprocessing

- Laserdicing

### Measurements

optical microscope  
side view

### Remarks

Please note: According to our factsheets a bottleneck as pictured on the left may exist close below the surface.
